MAN FALLS INTO THE EARTH

Disappeared from View in a Very Mysterious Manner.

One of the most peculiar mining accidents to have happened in this section was at Santa Rita, says a correspondent of the El Paso Herald from Silver City. C. P. Crawford, a prominent mining man, who has been operating mines extensively at the Santa Rita camps for some time past, was sitting in a tent near the China mine, which is used as an assay office, talking to two men, when he and his chair disappeared through the ground and out of sight before the startled men, who were sitting talking to him.

It seems that not knowing of an old working where the tent had been placed, as it has in some way been covered up, Mr. Crawford fell through and down the old shaft, about thirty feet.

It was considered a miracle that he was not killed, as the cave-in loosened considerable rock and dirt which all went down with him to the bottom, but he was taken out with no bones broken, but his head and face were quite seriously cut in many places.

REINSTATING THEM.

Express Strikers Are Going Back to Work.

It appears to be the policy of the Pacific Express company to reinstate none of the men who two weeks ago went out on strike but who last week, according to an order from their officers at St. Louis, received the word that the contest had been lost by them. At least that is the course the company is pursuing in El Paso, and it is reported in other Texas towns. The local authorities of that company say the four places left vacant by the strikers have been filled and the new men will not be let out to accommodate the old ones who quit work. One of the strikers returned yesterday morning from Fort Worth, where he had been in conference with the district superintendent. Upon his request that he be given work, the official told him it would be necessary for him to file his application with the company in the same manner as though he were a new man, thus beginning at the bottom.—El Paso News.

He Paid His Road Tax.

Just to demoralize the power of the law regarding the collection of the road tax, Supervisor A. B. Baca secured the arrest of a citizen who stated emphatically that he would not pay the two dollars demanded. Justice of the Peace Joseph McQuillin discouraged that kind of business by ordering the man to pay the tax, three dollars in the way of costs and a fine of five dollars, ten dollars in all. The amount was forthcoming.—San Marcial Dec.
